# Imagine Together

Learn how...

- To equip your congregation with practical tools for discipleship, building community, faith formation, and living out faith as accompaniment.
- To actively be aware of God in your midst, and see God's actions in everyday life.
- To get out of your church buildings and into the community for mission and ministry.
- To equip your congregation to articulate who God is, who we are and how our stories intersect.
- To build a practical toolbox to improve congregation vitality.
